# To embed a myBrainshark presentation on a Lessons page in Sakai

- o In myBrainshark, click "Embed/Link", then click the "Embed Code" tab.
- o You'll see a complicated-looking embed code in a box. In this code, carefully highlight and copy

Links | Embed Code | QR Code

< > Embed this presentation using this HTML:

To embed in Sakai, copy only the web link (without quotes) from the embed code. In a Sakai Lesson, click **Add Multimedia** and paste the address.

○ Size: 345x230 ○ Size: 440x283 ⦿ Size: 555x348

<div><iframe src="http://www.brainshark.com/brainshark/vu/view.asp?pi=6190197728&dm=5&pause=1&nrs=1&appKey=77" frameborder="0" width="555" height="348" scrolling="no" style="border:1px solid #999999"></iframe></div>

☐ Use <object> embed code ← Don't check this box!

the web address as shown below.

- o In Sakai, go to the page in Lessons where you want to embed the presentation.
- o Click **Add Multimedia** at the top.
- o In the URL field, paste the address copied from Brainshark's embed code.
- o **IMPORTANT!** Before saving, you must make a small but important adjustment:
  At the start of the address you just pasted, add the letter "s" to "http" as shown below.

Add Multimedia ✖

You may supply a file to be uploaded, specify a URL where the item is available, or choose a file that has already been uploaded.
Frequently Asked Questions about multimedia content

URL:
https://www.brainshark.com/brainshark/vu/view.asp?pi=6190197728&dm

Upload file:
Browse...

Adjust the URL so it begins with **https**

Choose Existing File

Save Cancel

Then click **SAVE**.

- o To adjust the display size of the embedded presentation, click **Edit** beside the presentation and change the width and height. For best results, use one of the width/height options shown on Brainshark's Embed code page, such as **Width = 555px** and **Height=348px**
