

Sakai Gradebook

The Sakai Gradebook allows instructors to record, calculate, and distribute student grades and feedback in Sakai. Create categories and organize Gradebook items. Choose weighting to help calculate your grades. Transmit grades to the Gradebook from tools such as Tests & Quizzes, Assignments, and Forums. Export and import grades to Microsoft Excel (in .csv format).

Log in to Sakai

To log in to Sakai, you will use the SAME user name and password you use for WebAdvisor!

1. Go to <http://sakai.durhamtech.edu/> to access the **Sakai Gateway Page**.

Note: You will need a reasonably current web browser to use Sakai. **Firefox 4** or higher is the recommended browser.

Sakai Practice Course

A blank practice course site has been created in Sakai for your use in Sakai training and you are enrolled as the instructor. Access the course by clicking on **More Sites** and choosing **My Practice Course** under the **Training** category. Your practice course is marked unpublished and as the instructor you have full access to modify the course. This is a practice course where you can try out how to do things in Sakai. A sample student is enrolled in your practice course.

Note: By default, courses are marked unpublished (unavailable to students) until you make them available.

Sakai Gradebook

Access the Sakai Gradebook by going to the the course menu and clicking on **Gradebook**. This is the **Gradebook Items** (default) view. Click on **Gradebook Setup** to select your Gradebook options.

The screenshot shows the Sakai Gradebook interface for a course titled "My Practice Course: Gradebook". The page is marked as "Unpublished Site". The main navigation bar includes buttons for "Gradebook Items", "All Grades", "Course Grades", "Gradebook Setup" (circled in purple), "Course Grade Options", and "Import Grades". The left sidebar contains a menu with items like Home, Announcements, Syllabus, Email, Email Archive, Resources, Schedule, "Gradebook" (circled in purple), Statistics, Site Info, and Help. The main content area displays "Gradebook Items" with a message: "Currently, students can see their gradebook item scores, but not their course grade. [Change course grade options.](#)". Below this are buttons for "Add Gradebook Item(s)" and "Import gradebook item from spreadsheet". The "Average Course Grade" is shown as "-". A "Gradebook Items Summary" section includes a "Save current order as sorting order" button and a table with columns: Title*, Class Avg**, Due Date, Released to Students, Included in Course Grade, and Sorting ▲. A legend below the table explains the symbols: *Titles shown in grey are not released to students. **Class averages in parentheses () are not included in the course grade calculations. ***These items must be graded from the tool listed and may not be graded from the gradebook.

Set up your Sakai Gradebook (Categories & Weighting)

It's a good idea to set up your Sakai Gradebook categories and weighting before adding items to your Gradebook. Set up your Gradebook categories based on your grading structure. In this example we will use the following simple grading structure.

Assignments	45% (drop the lowest grade)
Forums	25%
Tests & Quizzes	30%
Total	100%

Note: To use drop highest, drop lowest, or keep highest, all items in the category must have the same point value.

- Gradebook Setup**
- Select Points
 - ✓ Check Display released Gradebook Items to students
 - Select Categories & Weighting
 - ✓ Enable Drop Lowest
 - Enter Categories, Percent, and Drop Lowest
 - Click **Save Changes**

Running Total 100%
Needed Total 0%

[Save Changes](#) [Cancel](#)

Note: Keep in mind that in order to use drop highest, drop lowest, or keep highest, all items in the category must have the same Gradebook Item Point Value.

Adding Items to your Gradebook

There are two ways to add items to your Gradebook:

1. Items created automatically

The **Assignments** and **Tests & Quizzes** tools give you the option to create Gradebook Items automatically and send grades to the Gradebook. (see page 7 for more info)

2. Items created manually

Create any other items you would like in your Gradebook manually. If you use the **Forums** tool, you will need to create Gradebook Items manually. Then, associate these items with the Gradebook to send grades to the Gradebook. (see page 7 for more info)

Add Gradebook Items

Add Gradebook Items manually by clicking on **Add Gradebook Items** in the Gradebook Items view. Add more than one item at a time by clicking on **Add Another Gradebook Item**.

Add Gradebook Items

- Title (required)
- Gradebook Item Point Value (required)
- Due Date (not required)
- Category
- ✓ Release this item to Students (default)

Include this item in course grade calculations.
Assign a category to make this option available.

[Gradebook Items](#) > Add Gradebook Item(s)
Submit this form to add gradebook item(s) to the gradebook.
* means required

Title *

Gradebook Item Point Value *

Due Date (mm/dd/yy)

Category Items not assigned to a category will not be counted toward the course grade calculation.

Release this item to Students

Include this item in course grade calculations

[Add Another Gradebook Item](#)

Note: It's a good idea to categorize your Gradebook items as you create them. If you forget to assign a category, you can go back and do that later.
Note: Any uncategorized Gradebook items will automatically receive the **Unassigned** category. Unassigned items can be released to students but will not be counted toward the course grade calculation.

Gradebook Views

The screenshot shows the 'Gradebook Items' page with the following callouts:

- 1**: 'Change course grade options' link
- 2**: 'Add Gradebook Item(s)' button
- 3**: 'Import gradebook item from spreadsheet' button
- 4**: Expand/collapse arrow for 'Assignments' category
- 5**: 'Chapter 1' link
- 6**: 'Edit' link for 'Chapter 3'
- 7**: 'Class Avg**' column header
- 8**: 'Weight' column header
- 9**: 'Released to Students' column header
- 10**: Sorting arrows
- 11**: 'Grade Editor***' column header

Title*	Class Avg**	Weight	Due Date	Released to Students	Included in Course Grade	Sorting	Grade Editor***
Assignments (Drop 1 Lowest) 100% 45%							
Chapter 1 Edit	100/100		Aug 22, 2012	Yes	Yes	1	<i>from Assignments</i>
Chapter 2 Edit	100/100		Aug 29, 2012	Yes	Yes	2	<i>from Assignments</i>
Chapter 3 Edit	100/100		Sep 5, 2012	Yes	Yes	3	<i>from Assignments</i>
Chapter 4 Edit	100/100		Sep 12, 2012	Yes	Yes	4	<i>from Assignments</i>
Chapter 5 Edit	(100/100)		Sep 19, 2012	No	No	5	<i>from Assignments</i>
Forums 100% 25%							
Week 1 Edit	10/10		Aug 22, 2012	Yes	Yes	1	
Week 2 Edit	10/10		Aug 29, 2012	Yes	Yes	2	
Week 3 Edit	10/10		Sep 5, 2012	Yes	Yes	3	
Tests & Quizzes 100% 30%							
Test 1 Edit	25/25		Sep 12, 2012	Yes	Yes	1	<i>from Tests & Quizzes</i>
Test 2 Edit	30/30		Oct 10, 2012	Yes	Yes	2	<i>from Tests & Quizzes</i>
Unassigned N/A -							
Test 3 Edit	-		Oct 24, 2012	Yes	No	1	<i>from Tests & Quizzes</i>

Legend:
 *Titles shown in grey are not released to students.
 **Class averages in parentheses () are not included in the course grade calculations.
 ***These items must be graded from the tool listed and may not be graded from the gradebook.

The **Gradebook Items Summary** view (default view) displays a summary of all Gradebook items by category. In this view you will be able to:

1. Change course grade options
2. Add Gradebook items
3. Import Gradebook item from spreadsheet
4. Click the **arrows** to expand & collapse items by title or category. Sort items by column name or category.
5. Click the **name** of a Gradebook item to view the item's summary
6. Click **Edit** item to select a category, Release the item to Students, or Include this item in course grade calculations
 - o Note: Items not released to students will appear greyed out and students are unable to view these items (Example: Chapter 5 Assignment).
7. See the class average
 - o Note: Class averages in parentheses () are not included in the course grade calculations.
8. See the weighting percentages and due dates
9. See if the item is released to students and included in course grade
10. Sorting allows you to reorder items within a category by moving arrows up or down
11. The Grade Editor column shows which tool the Gradebook item is associated, marked in yellow. These items must be graded from the tool listed and may not be graded from the Gradebook.

Durham, SampleStudent	dtccstudent_s	100%	400	-	100	-	-	100%	10	10	10
Horton, SampleStudent	hortons2146_s	100%	400	100	100	100	(100)	100%	10	10	10

Legend:
 *Grades in parentheses () are not included in the category average or course grade calculations.
 **Items with a grey background are not released to students.
 Dropped grades are struck out.

The **All Grades** view allows instructors to view a list of students, scores on all graded items, and cumulative scores. In this view you will be able to:

1. See the average course grade
2. Filter the Gradebook items by section/groups and categories
3. Search for a student within the Gradebook
4. Click on the **column names** to sort items. Click **Details** to show the Gradebook Item Summary of an item.

Notes:

- Grades in parentheses () are not included in the category average or course grade calculations.
 - Items with a grey background are not released to students.
 - Dropped grades are struck out.
5. Click a **student's name** to display the student summary of grades
 - Tip: Click Student View of Grades to discretely display one student's grades at a time.
 6. See how students are doing by category in the course
 7. Hide/Show columns. Hiding a column will not affect any grade calculations or displays for the students. Hide/Show columns is only used to organize and simplify the All Grades grade table for instructors.
 8. Export grades as PDF, CSV, or Excel

Course Grades

- **Override Grades.** Override a course grade by entering a different grade in the Grade Override box and click **Save**. The grade must be listed in the grading scale under Course Grade Options. To remove an override, delete the grade and click **Save**.
- **Export Grades** as PDF, CSV, or Excel.
- **Calculate Course Grades.** Currently, the Gradebook does not include Gradebook items that have not been graded in the course grade calculation. This could result in a higher course grade for a student. To include a Gradebook item in the course grade calculation, you must enter a grade of zero or higher. If you want to enter zeroes for any Gradebook item that has not been graded and then re-calculate the course grade, click **Calculate Course Grades**.

Course Grade Options

Student privacy is built in so students are not able to see each other's grades. The Gradebook allows students to view their own grades once instructors have released them. The course grade is based on the grading type and scale chosen and will include a letter grade and a number percentage grade.

- **Grade Display.** Check this box to display course grade to students now.
- **Grade Conversion.** Choose your grading scheme (Grade Type) from the drop down menu.

Things not adding up?

Here are a few tips:

- In the Gradebook Items view, check to see if all your Gradebook items are categorized correctly. Click the **Edit** link associated with the item and change the category.
- Check to see if the Gradebook item is released to students.
- Check to see if the Gradebook item is included in the course grade.
- Check your Gradebook Setup (see page 2).
- Enroll your Sample Student in your courses. Enter perfect scores to check your Gradebook Setup (categories, weighting, etc.). For more info about adding your Sample Student to your courses (see page 8).

Linking Sakai Tools with the Sakai Gradebook

Assignments, Tests & Quizzes, and Forums can be associated with the Sakai Gradebook so students can see their grades for these items. Here are brief instructions for linking these tools with the Sakai Gradebook. Please note this is not a complete how-to guide for using these tools. For more info about setting up and using these tools, visit: http://courses.durhamtech.edu/wiki/index.php/Sakai_Resources

Assignments

Add a new Assignment and link the item to the Gradebook:

- Go to the Assignments tool and click **Add**
 - Enter the required info (Title, Dates, Student Submission method, Grade Scale, Points, and Instructions)
 - Go to Grading and select Add Assignment to Gradebook
 - Choose a Gradebook category
 - Choose other Assignment options and click **Post**
- Note:** Go to the Assignments tool to grade Assignments

Tests & Quizzes

Link a Test to the Gradebook:

- Go to the Tests & Quizzes tool
 - Create an Assessment or Edit the test Settings of a new or existing test
 - Enter your test settings and choose Grading (at the bottom)
 - Go to Gradebook Options and select Grades sent to Gradebook (Selecting "Grades sent to Gradebook" will send scores to Gradebook immediately, regardless of feedback date.)
 - Go to the Gradebook and look for your test under Unassigned. Click Edit to select a category for your test.
 - Choose to Release this Item to students and Include this item in course grade calculations
 - Click **Save Changes**
- Note:** Go to the Tests & Quizzes tool to manually grade test questions and adjust test scores

Forums

Link a Forum to the Gradebook:

- Set up your Forum Gradebook Items first. Go to the Gradebook and click on **Add Gradebook Item(s)** to add items to your Gradebook.
 - Go to Forums and create a New Topic or Topic Settings
 - Go to the Grading options and select a Gradebook Item from the drop down menu
 - Click **Save**
- Note:** Go to the Forums tool to enter grades

Sakai Sample Student Account Info

A sample student account has been created for your use and is enrolled in your practice course. Having a sample student enrolled in your courses can be very helpful for testing purposes.

Log in as your sample student

1. Go to <http://sakai.durhamtech.edu/> to access the Sakai Gateway Page.
2. Enter the sample student **user id** and **password**.
 - Sakai sample student **user id** = (your user id_s) Example: doej1234_s
 - The Sakai sample student initial **password** will be given to you at training
 - Change the initial **password** by going to **My Workspace**, clicking on **Account**, then click on **Modify Details**. Enter **Current Password**, **Create New Password**, **Verify New Password**. Click on **Update Details**.
3. If you need help resetting your sample student password, contact sakaihelp@durhamtech.edu .
Note: If you need help resetting your **instructor** password:
 - Visit: <http://tinyurl.com/reset-webadvisor>
 - If you still cannot reset your password, contact the ITSD help desk at 919-536-7200 x6111.

Add your sample student to your real courses for testing purposes

1. Go to **Site Info** and click on **Add Participants**.
2. Enter your **sample student user id** in the Official Email Address or Username box and click **Continue**.
3. Choose the **Student** role (Can read content, and add content to a site where appropriate.) and click **Continue**. Then click **Continue** again.
4. Confirm that you are adding your sample student to your course by clicking **Finish**. You will be taken back to **Site Info** where you will see your **sample student** in the **Participant List**.
