# Embedding YouTube Videos in Blackboard

YouTube

1. Visit: www.youtube.com

2. Search for a video

3. Copy the embed code (in a box to the right of the video)

Blackboard

Go to the Control Panel and find the content area where you want to embed your video. You can also create a new content area to add videos.

1. Click on Add Item

2. Name your video

3. Paste the YouTube embed code

4. Very Important! Click the **HTML** button

5. Click Submit!

Note: If you have your Text Box Editor turned on click the **Toggle HTML Source Mode** button [<>] before and after pasting the embed code into Blackboard.

YouTube Advanced Settings

Before copying the YouTube embed code you can customize your settings.

- ✓ You can choose to include (or not include) related YouTube videos.
- ✓ You can choose to show a border around your video and choose a color scheme for the border.
