

H5P Content Types

Currently H5P offers nearly 40 “content types” or different kinds of interactives you can build. New content types are continually being added.

Accessibility Considerations:

The content types listed on this handout have been tested and deemed “accessible” by H5P. However, Instructional Technologies has not verified this; further testing is needed.

In addition, accessibility will also depend on choices you make (colors, captions, etc.) when adding your content and building your interactive.

Primarily Text Content Types

Content type	Primary Content	Description or Explanation
Documentation Tool	Text	Answer prompts to create a paper; then export the paper
Drag the Words	Text	Drag words into blanks in sentences
Fill in the Blanks	Text/Image	Type in the correct term/words in sentences
Mark the Words	Text	Highlight words in a paragraph or document, according to instructions
Summary	Text	Select an answer from a list of key statements

Primarily Image Content Types

Content type	Primary Content	Description or Explanation
Collage	Images	Combine multiple images into one graphic
Dialog Cards	Text/Images/Audio	Display text-based hints (optionally add an image and/or audio hints). Students turn the card to see the answer
Drag and Drop	Text/Images	Drag the correct text/phrase onto the correct image
Guess the Answer	Text/Images	Display an image with a question: students click a button to display solution text
Image Hotspots	Text/Images/Video	Display an image with multiple locations students click on, to display text, videos
Image Slider	Images	Display a series of images
Memory Game	Images	Choose pairs (sets) of images

Multimedia Content Types

Content type	Primary Content	Description or Explanation
Column	Text/Images Video/Questions	Stack a number of content types together, such as text, a multiple choice question, a video, and a fill in the blanks question, into one content type “module”
Course Presentation	Text/Images Video/Questions	Create a presentation with interactive slides (text, images, video) and with different types of questions
Interactive Video	Text/images Video/Questions	Add to your video: text, tables, links, and various question types (multiple choice, fill in the blank, drag and drop)

Question Content Types

Content Type	Primary Content	Description or Explanation
Multiple Choice	Questions (Text/Images)	Can add image or videos appropriate for the question; multiple answers or a single answer can be correct; can randomize answers.
Quiz	Questions (Text/Images)	Create a sequence of questions types (multiple choice, drag and drop, fill in the blanks, mark the words, and drag the words). Can set background images, and define a pass percentage rate.
Single Choice Set	Questions	Create questions with one correct answer
True/False	Questions (Text/Images)	Can also add an image or video with question

Alternatives for H5P Content Types

Content Type	Primary Content	Alternative
Accordion	Formatting	Create collapsible sections in Lessons: http://bit.ly/les-collap-sections
Audio Recorder	Audio	In the Sakai Text Editor (such as in Lessons), use the Audio Record Clip tool to record up to three minutes that your students can play in Sakai: http://bit.ly/sakai-rec-audio
Chart	Data	You can create a chart with Excel or Word
Questions	Text	You can add Questions (multiple choice and open-ended questions) in Sakai Lessons; results can be added to the Gradebook: http://bit.ly/les-add-questions
