

Socrative (suh·kra·tiv) is a free, web-based student response application. Use it to create quizzes and polls, check for student understanding, or encourage discussion.

Sign up for an account at www.socrative.com

To Create a Quiz:

1. Log in and select the **Quizzes tab**.
2. Click **Add Quiz** and select **Create New**.
3. Type a title for the quiz and then select a question type from the bottom of the screen.
4. Enter the question text (and feedback, if desired). When you're done click Save.
5. To add another question, select the question type from the bottom of the screen.
6. When you have entered all of the questions, scroll to the top and click **Save & Exit**.

To Launch a Quiz:

1. Ask students to log in to your room at b.socrative.com/student
2. Log in to the instructor portal at b.socrative.com/teacher and select the **Launch tab**.
3. Select an activity.

Launch Activities:

- **Quiz:** Access and launch a quiz you created. Students respond individually.
- **Space Race:** Access and launch a quiz you created. Students respond in teams.
- **Exit Ticket:** Launch two Socrative-authored questions and an open-ended instructor question. Students respond individually.
- **Quick Question:** Provide a quick way for students to immediately respond to an instructor question. Students respond individually.

Quiz Delivery Options:

- **Instant Feedback:** Students answer questions in sequential order and cannot change their answers.
- **Open Navigation:** Allows students to answer questions in any order. This option allows them to make changes to their answers.
- **Teacher Paced:** The instructor controls which questions to release.

Tips:

- You can collect Report Data on students and have them remain anonymous during a quiz by turning on the Require Names open when preparing to launch a quiz. Then when the quiz launches, turn off Show Names (located above the real-time results).

- To ensure students begin at the same time, first ask them to log in to your room, and then launch the quiz.
